

Your 24/7 source for irrigation knowledge and training

THE MORE YOU KNOW, THE MORE YOU GROW.

To improve your operation, you need a way to evaluate irrigation equipment and technology, and a place to receive ongoing training after you purchase equipment.

But there hasn't been a comprehensive resource with education tools specific to irrigation. Until now.

Launched in 2015, irrigation.education is designed for growers. The website offers a wealth of best practices and self-training courses sponsored by industry experts.

Now you have 24/7 access to straightforward, easy-to-understand irrigation information - from sources you trust. Best of all, it's available on your schedule and it's absolutely free.

HOW TO LOG IN.

To begin, head to www.irrigation.education. From there, click the **Learn** tab and select **Get Started**.

After registering, you can access the entire irrigation.education course catalog for free. Search for online courses, videos, and downloadable content.

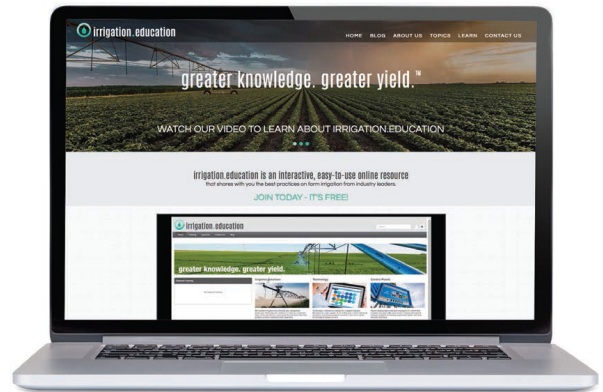

READ: Keep up with the latest content on our blog, social media channels, and in the training center.

LEARN: Study blog posts, complete e-learning courses, and collaborate on the blog and in the training center.

GROW: Put your new knowledge of products and techniques to the test and beat last year's yield.

ONLINE TRAINING.

The **Course Catalog** contains all available irrigation courses and videos. Browse by topic, sponsor, or language to find exactly what you're looking for.

When taking online training courses, we recommend the following:

- Use a tablet or personal computer. The online courses are highly interactive and function best on larger screens.
- The courses perform best on Internet Explorer and Google Chrome.
- Turn off all browser enabled pop-up blockers.

WHERE YOU CAN FIND US.

Stay up-to-date with our blog, social media, and YouTube channels. Look to these networks to find new irrigation.education content and promotions.
